

About

I'm Alex Clothier, a graphic designer, specialising in branding with 3+ years industry experience.

Proud to say that I'm a D&AD New Blood, yellow pencil winner and young creative of the year 2020! I'm an avid traveler who's trying to experience design industry around the world.

I'm a conceptual thinker and skilled in the Adobe suite. I work best in a team environment and have gained a lot of experience through my time in the industry. I am currently looking for a design role that will challenge me to be more creative and think how the brand will be portrayed in every aspect of the audiences experience.

I've worked with brands such as Google, Youtube, Samsung, Amazon, The New York Times (NYT) and many more. Lead designer on multiple brand for the Cannes Lion Festival and SXSW.
